

About ecological problems

8 класс

Цели урока:

Практические: развивать навыки чтения, активизировать изученный лексико-грамматический материал, формировать навыки анализа прочитанных текстов, акцентировать внимание на умение вести дискуссию, тренировать учащихся в речевой деятельности с опорой на текст;

Развивающие: развитие мышления, внимания, памяти, любознательности;

Образовательные: расширение кругозора, формировании коммуникативной компетенции;

Воспитательные: прививание школьникам любви и бережного отношения к живой природе.

I. Приветствие

- Good morning Girls and Boys! Have your seats. I'm happy to meet you here. I'm glad to see everybody and I'm sure that you are full of energy and ready to do our lesson rich and interesting. Our lesson must be creative and mobile.

- I want you to begin our lesson with the poem.

Hug the Earth

1)The Earth is a garden
It's a beautiful place
For all living creatures
For all the human race

2)Helping mother Earth
We can peacefully roam
We all deserve a place
We can call our home

What does this poem speak about?

P1- About the Earth

P2 – we must help animals, plants

P3 – we must care of the Earth

- What do you think, what about are we going to speak?

P - I think we are going to discuss environmental problems

- Yes, you are right, we shall speak about ecology. The theme of the lesson is “About Ecological problems” .

- Name the words associated with this problem and write them on the blackboard.

P_s - pollute, waste, protect, environment, predict, damage, nature, litter, an international disaster, wildlife, die out, national parks.

- Repeat after me.

II.

– Do you like our village?

P_s – Yes, we do

- Our village is large and beautiful, but there are some ecological problems.

Name them:

P1- Flowers are pulled out.

P2 - Trees are cut down

P3 - The water is polluted

P4 - Litter is left

P5 - Fires are started

III.

– These problems are very serious.

Let's discuss them

P1 - I want to be first. We like flowers very much, but people should not pick wild flowers and grass. If trees are destroyed and people pick flowers and grass, birds and animals may become extinct. PEOPLE, DO NOT HARM PLANTS!

P2 - You can see different kinds of trees and flowers in the meadows near our village Kenger-Meneuz. CHILDREN, PLANT TREES AND FLOWERS!

P3 – We should keep Bizhbulyak district tidy. It's our home. There are many springs near our village. Pupils from our school clean them. It is wonderful to drink some spring water on a summer day. CHILDREN CLEAN SPRINGS!

P4 – Every year I see litter near my village. I'm sure that our country people throw away old things, bottles, clothes and plastic bags. Maybe they do not know 3 rules:

reuse, reduce, recycle. It's a pity. PEOPLE, TAKE LITTER HOME!

P5 – Many years ago river Kenger was deep and wide. People used to fish a lot. Today people like fishing too. But some things that they use for fishing kill them. PEOPLE, PROTECT FISH!

- Children of our village learn a lot about 3 Rules: reuse, reduce, recycle(на доске) do you know what do they mean?

P1-Reuse – to use again

P2-Reduce – to make smaller or less

P3-Recycle – to use after the second remake

- You are right. Girls and boys what would you like to do to improve our village?

P1-I would like to plant trees and colourful flowers.

P2-As for me, I would like to create new parks and lovely gardens with exotic plants.

P3 – I would like to build a stadium and a swimming pool.

Let's do our eyes exercises

Eyes up

Eyes down

Eyes left

Eyes right

Close your eyes

Open your eyes

Eyes around.

VI.

- Let's check our Home task

Find Words in the text and fill the crossword

The key word is ENVIRONMENT (на доске, вертикально)

VII.

- Translate from Russian into English

1. берегите природу
2. не загрязняйте окружающую среду
3. убирайте свой двор, улицу, село
4. мы должны помогать животным и птицам
5. мы должны переработать бумагу, стекло, металл.

VIII. What poems about our nature do you know?

P1- The sun, the trees, the grass, the sky

The silver moon that's sailing by

The rain and dew and snowflakes white

The flowers sweet and stars of night
P2- The Song of birds, wind whispering
The autumn leaves the buds of spring
Such lovely things to hear and see
Belong to you, belong to me!

- Well done, thank you.

IX.

- It's interesting to know!

- 1) the lion has the smallest heart of all Wild Animals
- 2) tortoises live 140 years
- 3) fish live 60 years or longer
- 4) insects live only one year or even one day
- 5) a bee flies 10 km an hour for nectar
- 6) fish sleep under the water, but they don't close their eyes
- 7) the horse and the dog are the cleverest among the domestic animals

- Girls and boys let's watch a film (просмотр фильма о природе)

Dear friends!

- make laws to control pollution,
- help animals to survive,
- plant more trees to make our country green,
- feed animals in cold weather,
- be careful with farm waste,
- clean rivers and lakes.

To sum up I would use some proverbs: "Actions speak louder than words", "Handsome is that handsome does".

Now we'll listen to a poem "Oh, Russia, I'm in love with you!"

X. Conclusion.

Well, girls and boys, will you take your self-evaluation cards and give yourselves scores.

Questions	Score (1-3)
1. Did I ask any questions and bring any useful ideas?	
2. Was I creative or original?	
3. Did I use words on the topic?	
4. Did I take an active part at the lesson?	
Total score:	

Today's lesson was very serious. We have covered the subject quite thoroughly. I'd like to thank you for good work. Our lesson is over. I wish you good luck.
